Dates to Remember

Nov 20-24 Thanksgiving Break
Dec 14 ALCA Christmas Program
@ 7 PM

A Note from Sis. Coffey

We had a busy week full of reviewing and tests! Everyone is getting excited for Thanksgiving Break! Please make sure your student continues to work on their Science Project. These will be due February 22. Have a great weekend, God bless!

English 8-12

We are learning about nouns and their uses.

2nd Grade

- We studied the story of Balaam & his donkey in Bible class this week. In Math, we are learning how to do addition with carrying and we are also learning how to use fractions with money. We are working on prefixes, suffixes, and contractions in Language class. In Science, we learned how seeds travel. We started a new reader this week called No Longer a Nobody in Reading class and lastly, in Art, we made a poster/card with handwritten scripture.

4th Grade

- We studied the story of how Joseph's brothers found out who he was in Bible class. In Math, we are finding the greatest common factor in fractions. We are learning how to write reports in Language! We learned how we built a new nation after the war for independence in History class. In Science, we are learning about air weight and pressure, the atmosphere and why the sky is blue. We are reading Liberty Tree; Adventures in Other Lands in Reading class.

History

8th – We reviewed about “Liberty and Union” and we took Test #4.

9th – We reviewed about South Africa and took Test #4.

10th – We took Test #4 and we are also beginning to learn about England.

11th – We are reviewing about the Alamo and are preparing for Test #4.

Science

8th – We are learning about “God’s Creation”.

9th – We took Test #4 over “Ionic Bonding: Transferring Electrons”.

10th – We took Test #4 over Ch. 8-9. We are also starting to learn about our blood types.

11th – We continue to learn about “Gibbs Free Energy”.

Math

8th – We are continuing to learn about Adding & Subtracting Algebraic problems.

9th – We are learning how to solve compound inequalities.

10th – We continue learning about “Domain & Range of Functions”.

11th – We are continuing to learn about perpendicular bisectors.

Specials

Bible

Over the past few weeks we have went over the prophecy of Revelations Chapters 1-13. The students have done well considering we have gone over approximately 1 chapter a day. There will be a test this Thursday over chapters 10-17 and the memory verses that will be due Thursday are Psalms 119:31-34.

Art

Students worked on a mosaic piece using magazine cut outs.

Music

Soloists worked very hard on their songs for our upcoming Christmas program! We can't wait to share what we've learned on Dec 14th!
