## Dates to Remember

Nov 20-24 Thanksgiving Break  
Dec 4 Board Meeting 7 PM  
Dec 14 Christmas Program  
7 PM

## A Note from Sis. Coffey...

We hope everyone has a safe and wonderful Thanksgiving with friends and family! Students will return to class on Monday, Nov. 27.  
God bless!

I will praise the name of God with a song, and will magnify him with thanksgiving.  
*Psalms 69:30*

## 2<sup>nd</sup> Grade

- This week in Bible class, we heard the story of Thanksgiving and we started listening to the Christmas story and Christmas songs as well. We are on chart 11 of special sounds for Phonics class and in reading we started a new reader called Paths of Gold. In Language, we are doing sentence exercises using special sounds, prefixes and suffixes. We are adding and subtracting families to 12 in Math class. We are also learning the thousandth place. We are discovering how magnets pull in Science class, and lastly in Art, we made a pinecone turkey!

## 4<sup>th</sup> Grade

- We learned the story of how the Pilgrims met the Indians (Thanksgiving story) this week in Bible class. We are learning how to reduce fractions in Math class, and in Language, we finished our encyclopedia report! We are now preparing for our long book report. We are reading Liberty Tree in Reading class and in History, we learned how the government was formed after the Revolutionary War. Lastly, in Science, we studied different types of clouds and precipitation!

## English 8-11

We are continuing to learn about nouns and their uses.

## Science

8<sup>th</sup>: We are learning about evolution and the theory behind it.

9<sup>th</sup>: We are learning about the types of organic compounds.

10<sup>th</sup>: We continue learning about blood.

11<sup>th</sup>: We continue learning about "Gibbs Free Energy".

## History

9<sup>th</sup>: We are learning about Mid America.

10<sup>th</sup>: We continue learning about England.

## Math

8<sup>th</sup>: We are learning about negative and positive numbers.

9<sup>th</sup>: We are learning how to solve systems of equations.

10<sup>th</sup>: We are learning about three-variable linear systems.

11<sup>th</sup>: We are learning about intercepted arcs of circles.

## Specials

Art: Students finished their mosaic pieces.

Music – Students continue practicing for our upcoming Christmas Program.

Bible - This week students took a test and also memorized scriptures.
